A sentence of five months in the house of correction, with a maximum of 12 months, was imposed in city court yesterday afternoon on Mrs. Teresa Gervasi, whose plea of guilty when charged with keeping intoxicating liquor contrary to the law was entered last week. A Barre woman who is out \$25 as the result of a mud-splashing which she received on the corner of North Main and Granite streets a few days ago is wondering whether the burden of liability should be borne by a careless automobile driver or the city. A copious fall of sprinkler water had laid a thin coating of mud on the street and as she emerged from the Barre creamery store an automobile whizzed around the corner. A small shower of mud enveloped the pedestrian, but the driver of the automobile continued his speeding as if entirely oblivious of the damage he had wrought. The woman engaged a jitney to take her home and an after-examination of her suit skirt and coat indicated that they had been ruined.

Inquiry among officers of the Barre Board of Trade develops the information that the projected opening of the shirt-waist and pajama factory in the old church on Church street has been postponed because of a shortage of material. Not long ago a representative of the Tauber-Ryttenberg company, which controls 40 factories, was in town to confer with the committee representing the Board of Trade. He is quoted as saying that the company is overrun with orders, although all of the branch factories are experiencing difficulty in obtaining enough material to keep them running on full time. Machinery for the Barre branch was placed in position in the gymnasium during the summer and the local project has not been abandoned by any means, as it is the purpose of the company to begin operations as soon as the necessary material can be obtained.

CLARA KIMBALL YOUNG

Clara Kimball Young in a Selznick Pictures production of Eugene Walter's powerful drama, "The Easiest Way," directed by Albert Capellani, will be the attraction at the Park Theatre next Wednesday. This is a story of theatrical life, and the problems which beset an unprotected woman in trying to make a career on the great white way. It provides Miss Young with unusual opportunities for beautiful gowning and is one of the biggest acting roles she has ever had.—adv.

Dress Goods for School Wear

You can buy dress goods at but a small advance from last season's prices. You can save 25 per cent. from prices asked in large cities. The reason is that smaller merchants have goods enough to last for two months without buying at high prices. Later all will have to advance prices fully one quarter. Goods bought at present prices would demand these prices now.

Wool Dress Goods

This is a good time to select goods for school wear. Our stock is very large and, as we say, prices are below their market value.

One lot of 36-inch Serge in all of the staple colors. This is a full Wool-Filled Serge at 59c per yard.

One lot of Old-Fashioned Repellent, 56 inches wide, in Maroon, Oxford Gray, Dark Green, Black and Navy Blue. This cloth will wash perfectly and outwear almost any cloth on the market. Just the cloth for misses' school dresses. A special for gents' shirts. This lot of 87c Repellent in this sale at 69c per yard. Send for samples. We parcel post free.

We have specials in 43-inch Sponged and Shrunken Serges in all colors at \$1.00 per yard. Nothing equal to Serges for good, hard wear.

We have the best lot of Dress Goods for years. Present prices are based on early purchases. You will appreciate their values.

Fall and Winter Outings

These are all new Outings, bought last spring. They are high enough, but not as high as the next lot will have to be, and not as high as you are expecting them to be. The trade knows just about as well as we do what it costs to manufacture in these times, and all will appreciate these prices and their quality.

New Fall Outings in a very large assortment of colors. Very pretty patterns at 15c per yard.

Full assortment of Duckling Fleece Outings for kimono and dressing saques. These at 18c per yard.

A beautiful assortment of materials for Bath Robes. These at 45c per yard. No more at any price.

See our windows for Bath Robe Blankets. These are very pretty and sell at but little more than last winter. We cannot duplicate these. Over one-third of early fall goods are off the market.

You can send for samples. We pay the parcel post. It's your best way of shopping. Try it once. It will please you.

New Coats

Our line of Winter Coats is complete in every department. We usually have a large line of Coats at this time of the season, but never were we able to show one-fourth the line we now have on display.

The reason is, we bought them and had them shipped early, to get the price and quality. You will be surprised to see how little advance there is on Coats from last season.

Come in and see the line while the sizes and colors are complete.

Ladies' Silk and Wool Dresses

We have now ready for your inspection and selection a large line of Silk and Wool Dresses, and in this early display you will find the prices not so much advanced over last season.

At \$10.00 we will give you some new things in Silk Poplin Dresses that are extra good Dress values. These are made in very attractive styles that are new, and the prices are no more than you have paid for the last two seasons.

These \$10.00 Poplin Dresses come in all the new shades, such as Taupe, Burgundy, Green, Brown, Blue and Black. The styles are very attractive.

We have about twenty odd Dresses in Silks, such as Taffetas and Messalines that were among our summer silks, and the styles are just as good as we can buy to-day. These we are closing at one-fourth off from the regular price. This means at about one-half the price we would have to pay to-day for the same quality.

Woolen Automobile Robes, size 60x80 inches. This Robe is especially constructed for automobile use and to give warmth and lasting durability. GUARANTEED: This Motor Weave Robe is guaranteed unconditionally by the manufacturers to give satisfactory service for good hard wear. Price only \$6.75.

A white frost, responsible for the destruction of many vegetable plants, left its imprint on the landscape this morning and because of the icy sting war gardeners and larger farmers were not in the best of humor to-day. When the skies cleared last evening, all signs began to point toward a mercury depression that would bring frost and many garden growers, alert to the dangers of a freeze, saw to it that tomato and cucumber vines were blanketed. Others, however, were less apprehensive and left their vegetation to the tender mercies of the frost. At 6 o'clock mercury thermometers were registering 32 degrees, and early risers are authority for the statement that the recession was even greater. Farmers to the east and west of Barre will lose heavily by the precocious violence of the young winter and in certain cases where vegetable plants were covered, the frost penetrated deep enough to damage the sheltered vines.
